

1 **(BSP October 13, 2003)**
2 **Removing Top Layer of Existing Pavement Surfacing from Bridge Deck**
3 The Contractor shall remove the top layer of existing pavement surfacing from the
4 roadway deck of Bridge No(s) ***\$\$1\$\$***. The depth of removal shall be either
5 the depth shown in the Plans or to just above the existing waterproofing membrane
6 to remain in place, whichever is less.
7
8 The Contractor shall submit the method and equipment proposed for the removal
9 operation to the Engineer for approval. The Contractor shall demonstrate to the
10 satisfaction of the Engineer that the proposed removal method and equipment are
11 adequate for the intended purpose and will provide satisfactory results. The
12 Contractor shall not begin bridge deck pavement surfacing removal operations until
13 receiving the Engineer's approval of the removal method and equipment.
14
15 The Contractor's bridge deck pavement surfacing removal operations shall not
16 damage the existing waterproofing membrane and the existing concrete bridge
17 deck. All damage to the existing waterproofing membrane and the existing
18 concrete bridge deck shall be repaired in accordance with Section 1-07.13 and as
19 approved by the Engineer.
